Do not shower for 8-10 hours after your spray tan appointment or 2-6 hours for the rapid tan.

Avoid products that have mineral oil, petroleum oil, or alcohol in them for your aftercare products.

Go braless. Avoid tight clothes until after you have showered.

Stay away from products like Bath and Body Works, Victoria Secret, etc.

1st shower should be 1-2 minutes. Pat dry after showering, do not rub or use soap.

You may shave just don't shave every day as that takes color off each time.

We recommend waiting 24 hours after your tanning appointment to work out.

Anti-acne products or makeup removers containing alcohol will fade tan faster.

You may notice the shower water coloring. It's the cosmetic bronzer, your tan is fine + underneath.

When the tan starts to fade: soak in a warm tub, and scrub away.

Oil free sunscreen is best when on vacation.

Your spray tan may come off on clothes and sheets, but it will wash out.

As time goes on your tan will fade. Expect it to last at least 5-10 days

The tan will continue to develop for the next 12-24 hours.

Hot tubs, chlorine, saunas, and salt water will make the tan fade a little faster.
